

4 great reasons for choosing Hydrovane

1 Try Before you Buy

Not sure if a Hydrovane is for you?

Let us install the machine you think you need and if after 30 days operating you find it's not for you, we'll take it away again and you'll have nothing to pay*

However, we think you'll be impressed with a host of outstanding features, including:

- Low noise levels - ideal for any location
- High quality, pulse-free, dry air
- Compact design with small footprint
- Low energy consumption
- Reliable direct drive

*Terms and conditions apply. Please ask your local Hydrovane distributor for more details

FREE Labour with first service

Now you can find out just how much a service by a Hydrovane-trained engineer can benefit your business without paying for the labour.

We'll service your compressor(s) and only charge you for any parts or oils that need replacing -

the rest will be absolutely FREE*.

And we guarantee:

- **Genuine parts and oil**
- **Optimum operating efficiency**
- **Minimum downtime**
- **Minimum energy wastage**
- **Longer working life**

*Terms and conditions apply. Please ask your local Hydrovane distributor for more details

- Free
- Guaranteed Quality
- Accurate Maintenance Budgeting
- Maximise Compressor Life

*Terms and conditions apply. Please ask your local Hydrovane distributor for more details

4 Compressed Air System Leak Testing - Payback in just a few days!

Are your profits leaking out of your compressed air system?

Hydrovane ultrasonic leak test equipment will help you to stop your compressed air output being wasted.

Estimates of losses per year from compressed air and nitrogen installations are staggering - the cost of just one 3mm compressed air leak at 7 bar could be as high as £1000. Figures for nitrogen leaks are even higher: just one 1.5mm nitrogen leak in a 7 bar system can easily cost in excess of £16,000 per year.

REDUCE LEAKS - INCREASE PROFITS

Please contact your local authorised Hydrovane distributor to discuss your compressed air requirements.
