

PROUD

to be made in the West Midlands

Proud to call ourselves
'British manufacturing at its best'

We are proud to have supplied more than 850,000 compressors from our West Midlands manufacturing home.

Hydrovane compressed air solutions can be found in a wide range of industries where a reliable supply of high quality air is vital for continuous production with minimum downtime.

If high quality compressed air is important for your business, Hydrovane has a UK-manufactured solution for you.
